

2. On a scale of 1 – 10 (1: Very Weak – 10: Very Strong), how much impact do you think present public health research has on:

3. In your opinion, which three of the following best demonstrates research impact?

4. What would you like next year's conference theme to be?

5. if you selected 'other' for question 4, what would you like next year's conference theme to be?

Nutrition and health

This conference is still presenting research, not the impact of it. Would really like to see the focus on impacts. Health protection

Integration and links with social care

stop Bing so liberal its retarded

Na

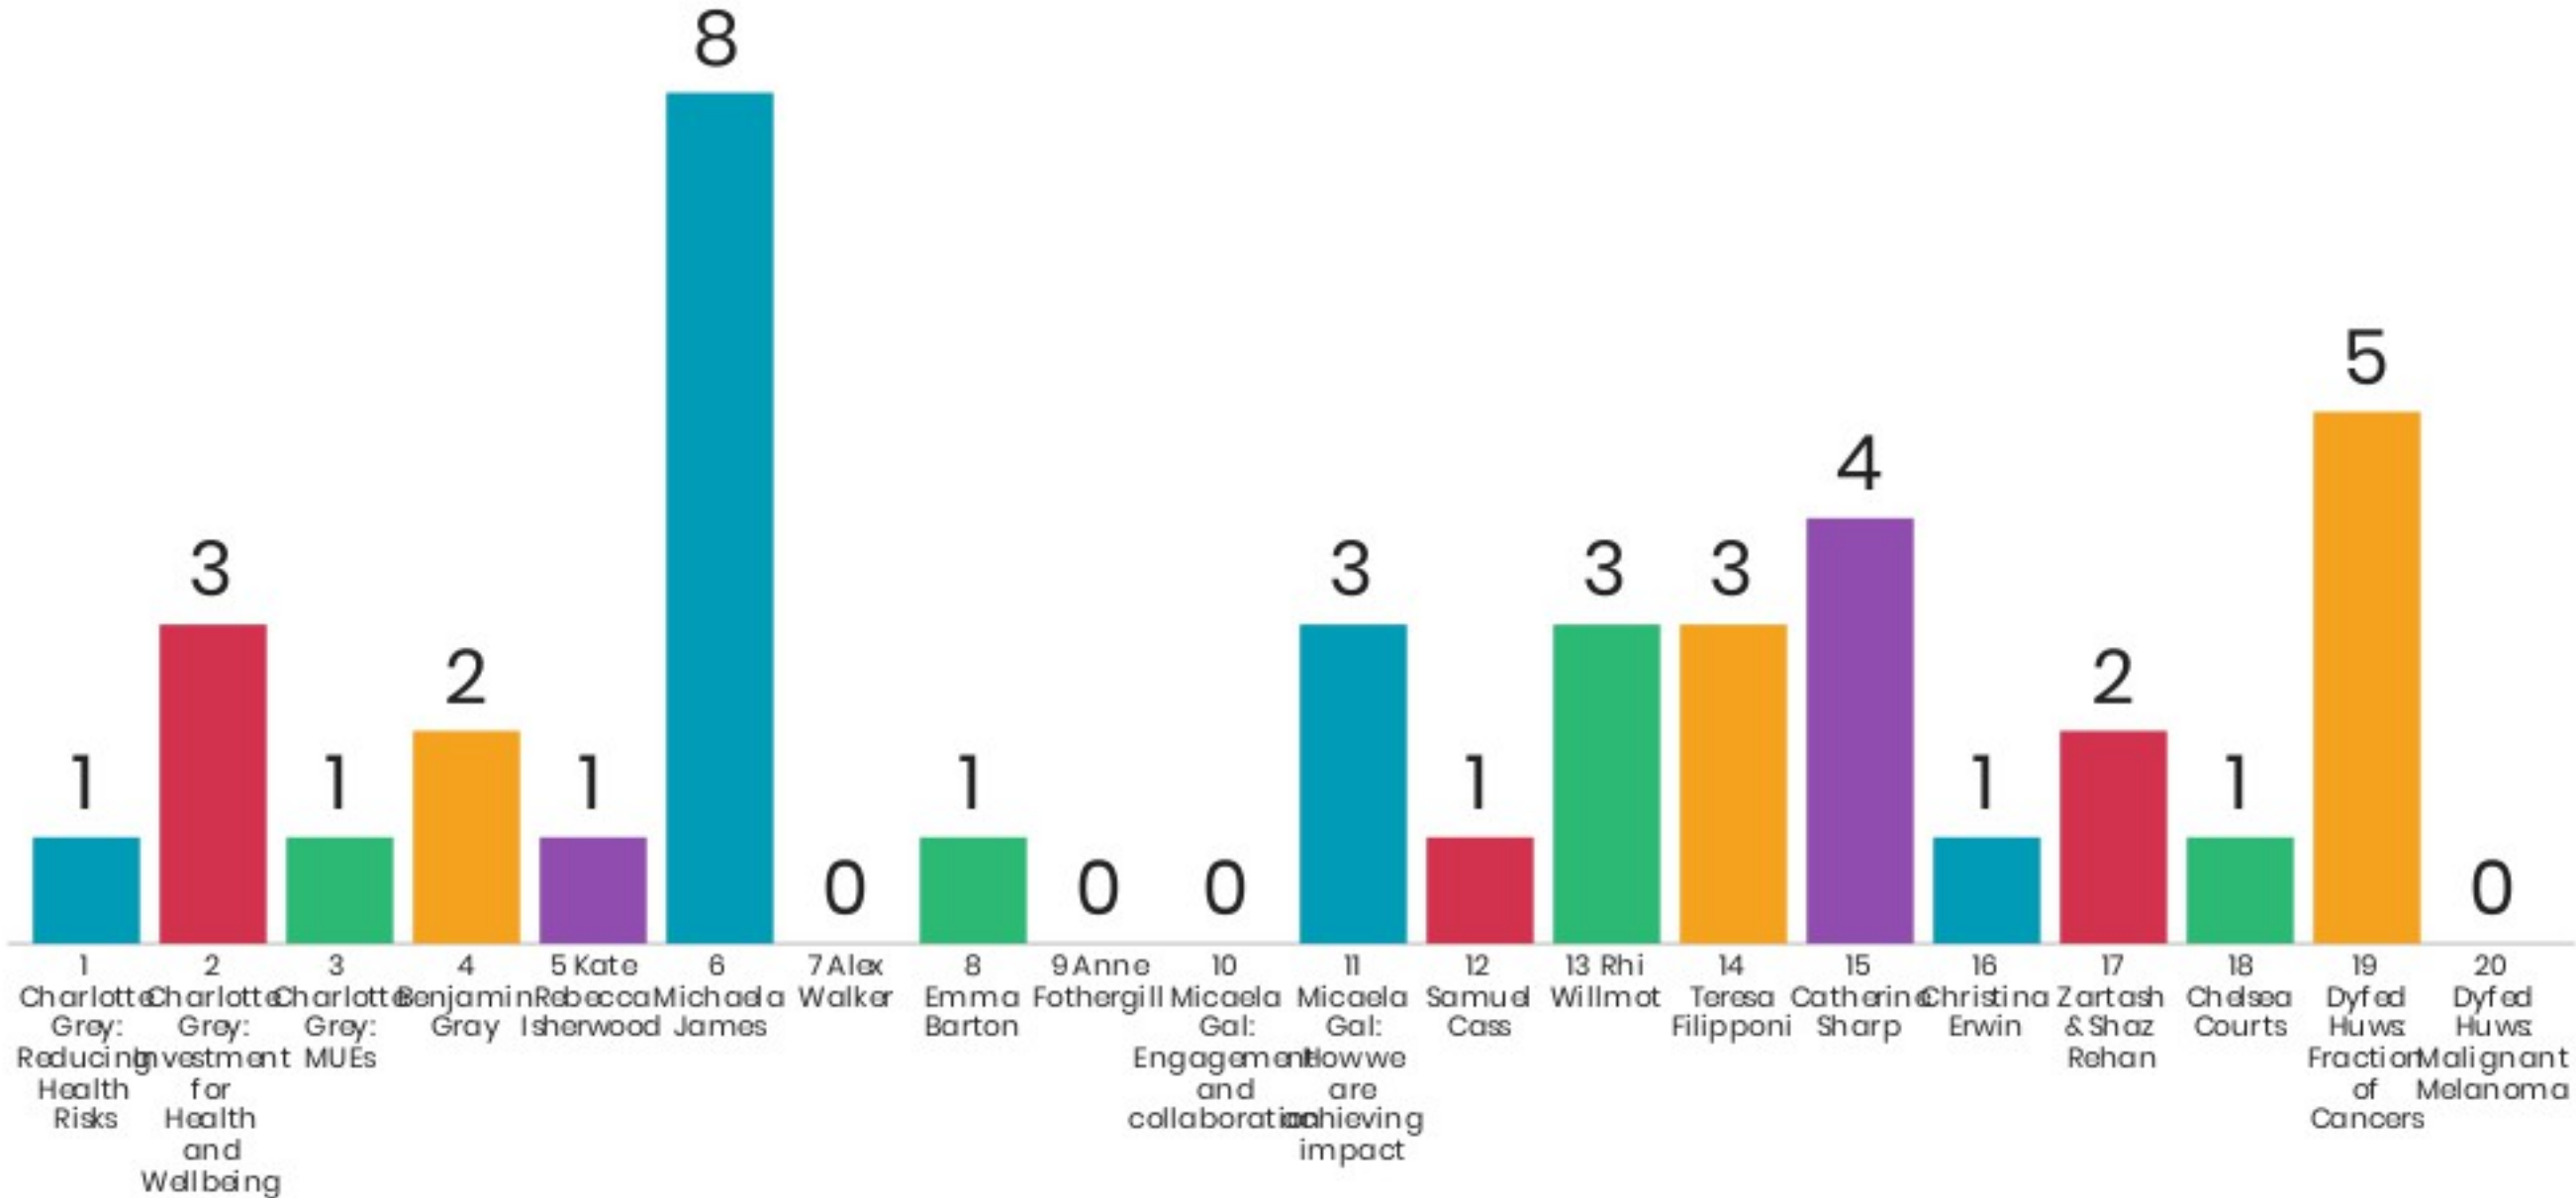

How can research improve future healthcare: and be integrated in public practice

Whole system approaches to public health

more cross section of public Health stakeholders i.e. practitioners, policy makers, researchers

6. The peoples' choice: which is your favourite poster

Thank you for completing the mentimeter poll

**Please don't forget to return your conference questionnaire
feedback also.**
